## **bent**

by Sebastian Herkner  
FLOOR LAMPS

Presenting the beauty of glass through simple abstract forms, Bent is a sculptural piece with a unique presence. A simple black steel frame allows its centrepiece to shine brightest; one or two curved sections of fluted and coloured glass. The simple pattern on the glass surfaces extends the light source to present a wave of form and light – illuminating even the darkest interiors.

## **kumo**

by no-made  
TABLE AND FLOOR LAMPS

Merging two spherical shapes into one handblown glass silhouette creates Kumo's unique form – referencing that of traditional Japanese paper lanterns. A strong limestone base in a matching tone supports the warm glow of the glass above; a balanced addition to your interior.

### **magma**

by Ferréol Babin  
LAMPS

From its earthy base to floating illuminated top, Magma pulls the elements together into one sculptural centrepiece. An oblong shaped handblown glass globe shines softly onto the strong, angular ceramic base below; whose fat lava glaze bubbles and streaks to reveal its own unique character.

### **stellar grape and wall**

by Sebastian Herkner  
FLOOR AND WALL LAMPS

Providing a dash of texture and a hazy focal point to your interior, Stellar expands the family into a new galaxy. Simple in appearance, the half-frosted acetate and half-ribbed sphere casts a particular glow. The discreet black steel fixing to the rear puts this unique handblown glass globe at the centre of your universe.
