CANDLELIGHT

Designed by Sebastian Hepting
Munich 2022

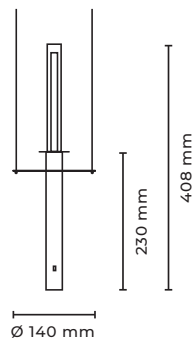

The soulful light of the candle flame has always held a magic that has fascinated people. Inspired by the idea of complementing the romantic light of the candle with the glow of an additional light source, an extraordinary luminaire was created in cooperation with designer Sebastian Hepting.

Candle Light is designed on the basis of a classic candle holder that seems to float weightlessly above the table. In addition to the glow of the candle, a soft spotlight shines downwards out of the luminaire and magically illuminates the table. With simple gesture control, the brightness and light colour of the downlight can be adjusted. To make the experience complete, the real wax candle can be replaced by a glass candle with an electric light source.

CANDLELIGHT SET 1

with Wax Candle,
Glass Candle, Sensor

Type	Suspension light
Material	Brass
Environment	Indoors
